Alone with myself, would rather be with anyone else  
I need some skin other than the skin I'm in  
Need a friend, need a partner  
But would take a one night stand for starters  
Time to fall in love with anyone

Happy with our drinks – the more we drink, the less we think  
Got some moves – gonna test out all these moves and grooves  
Need some friends, need some soul mates  
But would take a single name on our dance slates  
Time to fall in love with anyone

#### **Chorus**

Oops there I go again, it's love at first sight  
Bit o' hair, bit o' eyes, and I'm done for the night  
There's nothing to do, there ain't no where to hide  
It's my fate, it's my purpose, it's my people, my tribe  
I'm a signed up member of this Coalition Nation  
I'm a signed up member of this Con-Dem Nation  
I'm a signed up member of this God-damned nation

Staggerin' with my pod – the more we drink, the more we nod  
To one another, that all we need is each other  
'Cause we're friends, Custer's Last Stand  
They're just shootin' arrows at each man  
Time to fall in love with everyone

#### **Chorus**

Middle 8  
Don't call us shallow, that would imply some depth  
Prefer Surfin' Surfaces on our epitaphs  
Already regretting the texts that we've sent  
The coins of love badly spent

#### **Chorus**
