It's all about the knowing all about the showing, in we go go go  
It's all about the knowing all about the showing, in we go go go  
You've shown your face just to pick up the pace and we're going slow  
You've shown your face just to pick up the pace and we're going slow

I've found my way to fly to look inside  
To hop to skip to be part of the ride  
And I found it in love

#### **Chorus**

Oh in... oh  
And oh in... oh  
And oh in... oh  
Love

She's my princess I'm her clown  
She makes me smile when she's around  
And it's OK, alright up in the air  
With an upset night a little spite and we're fighting  
It's an upset night a little spite and we're fighting

I've found my way to fly to look inside  
To hop to skip to be part of the ride  
And I found it in love

#### **Chorus**
